Introduction Section

Recap from Last Lecture - Class 2

We talked about

- Understanding an Organization
- Understanding Jobs and Career Success
 - Research Career
 - Money v/s Success
- From Course to Careers
- Course Advising

Activity Given – Writing Mission Statement

- Objective: identifying your **personal** mission for a career and success
- Guideline:
 - Think of short (1-3 years), medium (4-7 years) and long-term (8 -) goals
 - While career is the focus, feel free to include personal goals as well
 - Define success criteria for all goals
 - Try to structure how short term (e.g., undergrad program) may help meet **medium-term goals**
 - Try to structure how short and medium may help meet **long-term goals**
- Try to identify organizations and job roles of interest
- Strategize how your major and courses may help

Activity Give

Main Section

Sharing of Resources - Importance

- Growing the ecosystem
- Raising one's own professional stature

Sharing of Resources – What to Watch Out For

- Intellectual property (IP)
- Privacy
- Unintended commitments

Understanding an Organization

- Any organization, like a company, University or a non-profit, has a set of processes that need to be performed.
- People are hired, and tools are used, to perform this processes.
- Any specific organization, like USC, may have unique processes but usually, most of them are common.
- APQC (American Productivity & Quality Center) helps define organizations, benchmarks them by industries and supports their transformation. Details: <https://www.apqc.org/>
- **Process Classification Framework (PCF)** is a taxonomy from them about business processes that allows organizations to objectively track and compare their performance internally and externally with organizations from any industry.
